

Safe UPI Practices Guide

Protect your money on every Indian payment app

ప్రతి భారతీయ చెల్లింపు యాప్‌లో మీ డబ్బును రక్షించుకోండి

UPI made digital payments instant — but that same speed lets fraudsters empty an account in seconds. This guide covers the core rules every UPI user must follow on Google Pay, PhonePe, Paytm, BHIM, and bank apps.

The Golden Rule. You enter a UPI PIN only to **SEND** money — never to receive it. Anyone asking you to enter a PIN, scan a QR, or approve a request to *receive* money is a scammer. Stop, do not type anything.

10 Rules for Safe UPI Transactions

#	Daily practice
1	Verify the receiver's name shown by the app — not just the UPI ID — before tapping Pay.
2	Send ₹1 first when paying a new person or merchant for the first time.
3	Set a daily UPI limit lower than your balance (for example ₹10,000) in your bank app.
4	Never scan a QR code to <i>receive</i> money — QR scans are always for sending.
5	Reject every Collect Request that arrives from an unknown UPI ID.
6	Use an app-lock or biometric on the UPI app, separate from the phone lock.
7	Never save your UPI PIN in notes, photos, contacts, WhatsApp, or email.
8	Treat all "wrong transfer, please return" calls as scams — they almost always are.
9	Uninstall AnyDesk, TeamViewer, QuickSupport, and similar tools — fraudsters use them to watch your screen.
10	Check SMS for every debit; report any unknown transaction to the bank within 3 days.

Safe UPI Practices Guide

Recognise scams, recover fast

మోసాలను గుర్తించడం మరియు త్వరిత పునరుద్ధరణ

Common UPI Scams — Recognise Them Instantly

Scam	How it works
QR-code scam	An OLX or Marketplace buyer sends a QR and says "scan to receive payment". Scanning plus PIN debits <i>you</i> .
Fake customer care	A Google search shows a fake bank or wallet helpline number. The "agent" makes you install AnyDesk and watches your PIN.
Wrong-transfer refund	"I sent ₹5,000 by mistake, please return it." The original credit was fake; you lose real money.
KYC / blocking SMS	"Your UPI will be blocked — update KYC at this link." The link installs a screen-stealing app.
Job, lottery, prize	You "won" something but must pay a small verification fee. Pay once and more fees follow.
Telegram task apps	Small profits build trust until you deposit a large sum that vanishes overnight.

If You Are Cheated — Act in the First Hour

- Call **1930** immediately — every minute reduces recovery chances.
- File a complaint at **cybercrime.gov.in** with screenshots of every transaction and chat.
- Tell your bank to freeze the receiver's account and your card.
- Disable UPI in the app and reset the PIN from a clean device.
- Lodge an FIR at the nearest police station — needed for any insurance or chargeback claim.

తెలుగు సారాంశం. UPI పిన్ పంపడానికి మాత్రమే — తీసుకోవడానికి కాదు. క్యూఆర్ స్కాన్ చేసి పిన్ ఇస్తే మీ డబ్బు పోతుంది. తెలియని వ్యక్తుల కలెక్ట్ రిక్వెస్ట్లను తిరస్కరించండి. మోసం జరిగితే వెంటనే **1930** కు ఫోన్ చేయండి, **cybercrime.gov.in** లో ఫిర్యాదు నమోదు చేయండి.
